

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The following question has been revised from the original. Where were you born?

In the United States - Print name of state

Outside the United States - Print U.S. Territory (e.g., Puerto Rico, U.S. Virgin Islands, Guam) or name of foreign country, etc.
