

## **Data Collection Worksheet**

**Please Note:** The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The Working Group acknowledges that the following question may gather sensitive information relating to the use of substances and/or illegal conduct. If the information is released it might be damaging to an individual's employability, lead to social stigmatization, or other consequences.

For information on obtaining a Certificate of Confidentiality, which helps researchers protect the privacy of human research participants, please go to the National Human Genome Research Institute's Institutional Review Board website.

The following question is asked of the respondent. Respondents answer yes or no to this question. Read the introductory paragraph to the respondent. If your questionnaire includes multiple questions about alcohol, then the first sentence should be "The next questions are about drinking alcohol."

The next question is about drinking alcohol. This includes coolers, beer, wine, champagne, liquor such as whiskey, rum, gin, vodka, scotch, or liqueurs, and also any other type of alcohol.

In your entire life, have you had at least 1 drink of any kind of alcohol, not counting small tastes or sips?

1 [ ] Yes

2 [ ] No

Notes to interviewer:

- Definition of a standard drink: 1 12oz bottle of beer, 1 glass 4oz nonfortified wine, 1 mixed drink with 1oz liquor.
- If respondent needs a visual reference for the size of a drink, the flashcards from the Wave 1 National Epidemiologic Survey on Alcohol and Related Conditions (NESARC) study are provided below:
