

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

If someone chooses the underlined answers, they might have an unmet healthrelated social need.

Living Situation

- 1. What is your living situation today?
 - 1. [] I have a steady place to live
 - 2. [] I have a place to live today, but I am worried about losing it in the future
 - 3. [] I do not have a steady place to live (I am temporarily staying with others, in a hotel, in a shelter, living outside on the street, on a beach, in a car, abandoned building, bus or train station, or in a park)
- 2. Think about the place you live. Do you have problems with any of the following?

CHOOSE ALL THAT APPLY

- 1. [] Pests such as bugs, ants, or mice
- 2. [] <u>Mold</u>
- 3. [] <u>Lead paint or pipes</u>
- 4. [] Lack of heat
- 5. [] Oven or stove not working
- 6. [] Smoke detectors missing or not working
- 7. [] Water leaks
- 8. [] None of the above

Scoring

Underlined answer options indicate positive responses for the associated healthrelated social need.

Item 1: The second answer option is intended to identify beneficiaries who are at risk of losing their housing for any reason, including inability to pay a mortgage or rent. The third answer option is intended to identify beneficiaries who are homeless. Selecting either option 2 or option 3 would indicate that the beneficiary has a housing need for the purposes of the AHC Model.

Item 2: Selecting any answer option other than "none of the above" would indicate that the beneficiary has a housing need for the purposes of the AHC Model.
