

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Youth Acute Pain Functional Ability Questionnaire-Final 12 items

When people are in the hospital they sometimes are too sick or uncomfortable to do all of their normal activities. We want you to think about how difficult it would be to do these things today—not whether or not you like to do these things, or whether you did them today.

Today how difficult are these things for you to do?

Not
Difficult

A Little
Difficult

Somewhat
Difficult

Very
Difficult

Extremely
Difficult

1. Take a bath or shower?
2. Put on or change your hospital gown or clothes?
3. Wash your body?
4. Get up from the bed?
5. Walk around in the room?
6. Wash or shampoo your hair?
7. Go outside your room?
8. Be up without needing to rest?
9. Put on or change pants?
10. Do

homework or
schoolwork?

11. Turn over or
roll over in bed?
12. Put on or
change your shirt?

Patients rate their level of difficulty performing each activity during the day using a 5-point Likert scale (0 = Not difficult, 1 = A little difficult, 2 = Somewhat difficult, 3 = Very difficult, 4 = Extremely difficult). Higher scores indicate greater difficulty performing functional activities.
